# **Energy Generation Operations**

**Energy Generation Operators must understand and oversee all** 

aspects of a power-generating facility, whether that facility is

Operations-Biofuels, Fossil fuels, Nuclear and a Military option.

generating electricity or liquid fuels. We offer focus areas in Process

#### **Milford Campus** (some courses online)

#### Associate of Applied Science Degree

Graduate Earnings Recent graduates report an average starting salary of \$50,752 per year!

Certifications offered in Nuclear Uniform Curriculum Program and American Wind Energy Association

"NPPD has been pleased to work with SCC for many years, and SCC has consistently provided us with quality employees. The Energy Generation Operations program is yet another way that SCC has stepped up

to continue that commitment by preparing and providing a qualified workforce for Nebraska utilities."

Dallas Beshaler, Human Resources, NPPD Cooper Nuclear Station

"I had the most enjoyable learning experience at SCC. The instructors of the Energy Generation Operations program are the most caring and are an inspiration. They gave me confidence and motivation to find a job in my career."

Khiem Tran, OPPD employee, December 2012 ENER Graduate

"The Energy Generation Operations program has consistently responded with training and curriculum that meet the needs of the biofuels sector as it continues to expand."

Todd Sneller, Nebraska Ethanol Board

"LES appreciates the foresight at SCC that drove investing the time and resources to bring the Energy Generation Operations program online. Having a local program that Nebraska Utilities can help mold to fit their specific needs is a valuable resource that LES is proud to be a part of. The desire to source locally-educated and skilled operations staff for our generation facilities has been met by SCC with this program. "

Brian McReynolds, Director Generation Operations, Lincoln Electric System
